REASONS FOR ALLOWANCE

1. The following is an examiner's statement of reasons for allowance: ✓

a) with regard to the Examiner's initial objection to the Specification, Applicant states in his Remarks on pg. 12, that "Applicant believes that the claims are supported by the specification in accordance with 35 USC 112 without the material incorporated by reference at pages 15-16 of the specification"; and

b) with regard to the Examiner's initial prior art rejection, Applicant has properly amended independent claims 1, 12, 23 and 34; independent claim 35 was allowed previously because it already contained the allowable combination of method steps or system elements; and

c) with regard to the 35 USC 102 rejection of independent claim 23, this claim now refers to "computer-implemented logic...the logic embodied in a medium and operable to..."; and finally, finally,

c) the prior art of record, including the art cited on PTO-1449 filed 1/27/05, does not suggest or disclose the claimed combination of method steps or system elements, most particularly the dependent claimed material now incorporated into the aforementioned independent claims cited above.

2. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
